

International Fairy Service

Hello, I'm the Fairy who is On-Duty in your area at the moment! Our central computer shows there are lots of children who are worried about the virus, and wondering if the virus is in Fairyland too.

One of our Senior Fairies has asked me to write to you (although our Special Sparkly Paper Delivery hasn't arrived yet!) ... to let you know you can always send your worries to our Worry Blasters. Just take a deep breath in and blow out quickly! Talking about it with someone afterwards, will turn your worries into Ninja Fairies too! Fairies can't catch viruses ... we have a Special Magic Field around us and they bounce right off!

We've just had a Surprise Woodland Picnic to celebrate one of our Magic Potion Fairy's birthdays (he thought we'd forgotten!). He was on his way to collect some Magical Tree Bark for his new potion, when we all flew out from behind the trees and shouted 'Happy Birthday!'

It was so much fun! We had Dew Drop Tea (which tastes just like rainbows) and a totally epic Golden Shimmery-Sparkle Birthday Cake!
